

source/DumpState.c

```
graph TD; A[source/DumpState.c] --> B[global.h]; A --> C[stdio.h]; B --> C;
```

The diagram illustrates the dependencies of the file source/DumpState.c. It is represented by a gray rectangular box at the top. Two blue arrows originate from the bottom of this box: one points to a white rectangular box labeled global.h, and the other points to a gray rectangular box labeled stdio.h. Additionally, a blue arrow points from the global.h box down to the stdio.h box, indicating that global.h also depends on stdio.h.

global.h

stdio.h
